

SAINT MARK'S
EPISCOPAL CATHEDRAL

LIVING STONES BUILDING *for* MINISTRY

The Compline Corner Window

Saint Mark's plan is to replace all of the nave windows with new insulated glass in aluminum frames. The overall appearance of the windows will be largely unchanged, however, retaining the small panes of translucent glass, most of them uncolored, but with some lightly tinted.

The cost of this window is \$150,000.

If we are able to raise these funds, the window in the "Compline Corner" will be named in loving memory of Dr. Peter R. Hallock, Saint Mark's first Canon Precentor, who founded Saint Mark's Compline Choir 60 years ago. You can be a part of this dedication by making a designated gift to the Living Stones Capital Campaign.

You can do so with a pledge card, or online at saintmarks.org/livingstones (check the box for the Compline Window.)
